

### Overview

The Aviation Security Awareness Training Course is a mandatory training program for all airport personnel who have access to the Security Restricted Areas (SRA) and airside. This comprehensive course is designed to provide initial training as well as refresher sessions, in accordance with international best practices. It aims to ensure that all entities working at airport and have unescorted access to Security Restricted Areas are well-versed in the necessary security measures and protocols. By understanding and implementing aviation security principles, participants will contribute to maintaining a safe and secure aviation industry.

### COURSE OBJECTIVE

This course helps to raise awareness among airport personnel on the importance of staying vigilant against attempts of acts of unlawful interference.

### LEARNING OBJECTIVE

- Ability to identify potential threats and recognition of suspicious behaviour;
- Knowledge of previous acts of unlawful interference with civil aviation, terrorist acts and current threats;
- Awareness of the relevant legal and operational requirements;
- Knowledge of the objectives and organization of aviation security in their working environment;
- Knowledge of incident reporting procedures;
- Ability to respond appropriately to security-related incidents; and
- Confidence to challenge peers, colleagues and superiors when a deficiency in security behaviour is identified.
- Procedure for escorting visitors during an SRA / Airside visit

### WHY CHOOSE FAMZ GLOBAL?

- Experienced trainers with real-world expertise
- Comprehensive & practical training modules
- Hands-on experience with the latest security equipment
- Customized training solutions tailored to corporate needs
- Recognition and credibility in the aviation industry
- This course is available as in-house course to train multiple personnel at the client's own facility (by arrangement).
- FAMZ Global provides on-demand training according to the specific needs of clients.
